Am            G                   F            G

Am           G            C              E
I don't know where- but I know that I'm alone--
Am             G                F              G
     If it was me that made her leave I want'a know--
Am            G           C              E
Just lead the way,  gypsy woman and I'll go-----

Hey hey hey hey  hey----     gypsy woman---
Am             G        Am                E                A G F Am
look into your crystal  ball-  and tell me where my future lies-----
